BQE Software Releases ArchiOffice 2014

Latest Release Offers Improved Ease-of-Use, Flexible Invoicing, and Enhanced Reporting

Torrance, CA – May 7th, 2014 – BQE Software Inc., a world leader in time tracking, billing, and project management software with more than 300,000 users worldwide, announced today the immediate availability of BQE ArchiOffice® 2014. In its 10th anniversary release, the award-winning software for architects provides customers with faster and simpler usability, easier navigation, as well as more powerful invoicing and reporting features.

"BQE Software prides itself on being at the cutting edge of technology", says Steven Burns FAIA, Chief Creative Officer at BQE. "Every year, we strive to provide more innovative products and services for our customers. A common theme amongst customer requests this year is to continue building upon our tools that improve their cash flow and give them better insight into project financials. Therefore, we have added more flexible reporting and invoicing features in ArchiOffice 2014 to better serve their business needs. I am very proud of the technological advances we have made to progressively simplify and streamline our customers' workflow".

In an effort to make its business intelligence tools more affordable for small architectural firms, BQE Software is now offering ArchiOffice 2014 at a low monthly, subscription-based price.

ArchiOffice 2014 serves to help architects efficiently manage staff performance, projects, and profitability, so that they can spend more time and energy on applying creativity to their designs. In this annual update, BQE aims to improve productivity even more by incorporating time-saving features, such as memorized invoice dates and start of the week preference for timecard and reports. Other new and enhanced features include:

- Itemized Invoices with Task and Description
- Transfer Retainers between Client Projects
- Sort Reports by Project Leader
- Profitability Reports with Date Range
- Enhanced Bill Statement Report with Retainers
