

BQE Software Announces Strong Reception for BillQuick® Legal 2015

Torrance, CA - Sept. 29, 2015 - BQE Software, Inc., a world leader in time billing, accounting and project management software, announced today unprecedented growth related to the release of [BillQuick® Legal 2015](#).

Since the launch of BillQuick Legal in the spring, the number of new law firm clients acquired by the company has increased by 140 percent. Additionally, revenue related to the legal solution has grown by 275 percent. The growth is expected to continue as the company enters its fourth quarter, which is typically its busiest one.

"In an environment where numerous time and billing solutions are unable to keep pace with the evolving work habits of today's lawyers, BQE Software is dedicated to bringing attorneys a modern, mobile and user-friendly solution with BillQuick Legal," said Shafat Qazi, CEO and founder of BQE Software. "The company has successfully paved the way for time and billing in professional services such as architecture, engineering, accounting and consulting, and we anticipate the same adoption to continue in the legal industry."

"BillQuick Legal is, by far, the most intuitive time entry software that I have used," said Jamieson W. Fish, president of Haukaas Fish PLLC and a BillQuick Legal client. "I can't imagine trying to monitor and track billings of multiple associates using any other solution."

[BillQuick Legal 2015](#) includes support for LEDES electronic billing, upfront retainer billing and tracking capabilities, automatic billing arrangements with recurring options and native mobile apps to capture every billable minute and maximize billable time for law firms. It improves efficiency, accelerates cash flow and enables access at any time and on any device.

Since its launch, BillQuick Legal has been named one of the 20 most popular law practice solutions by Capterra and been featured in publications including [Legaltech News](#), [Legal IT Professionals](#), [Legal Ink](#) and [CIO Story](#).
